Existential Crisis

“Two great world wars have passed and the world is on the verge of a Third World War. The world is in crisis; there is misery, illness, and ignorance everywhere.

“Nothing good was left for us by the two world wars. The First World War left us with terrible influenza that killed millions of people in the year 1918. The Second World War left us with a mental pest that is far worse than the pest of the First World War. We are referring to the abominable “Existentialist Philosophy” that has totally poisoned the new generations. The revolution of the dialectic proclaims itself against such philosophy.”

Black Magic & The Mind

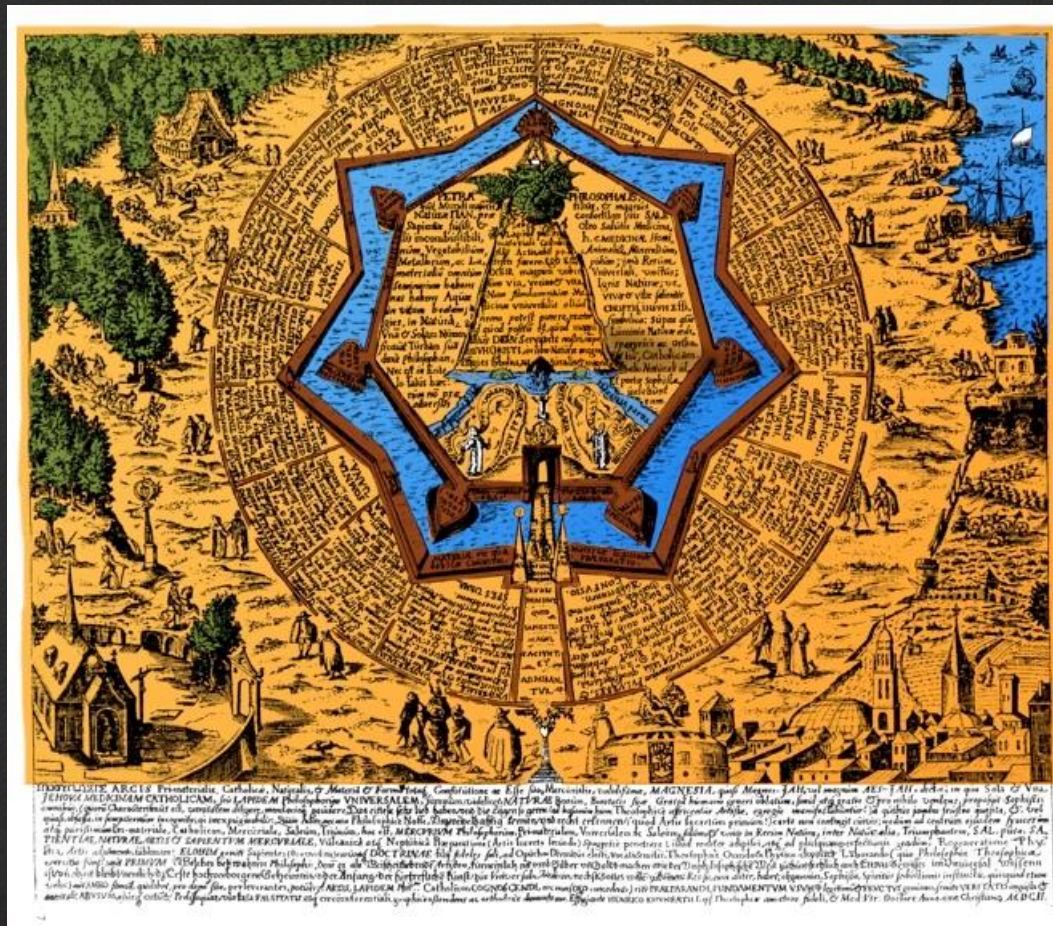

“Almost all spiritualist schools teach how to develop mental force; they all want to fortify the mind. This is how many end practicing black magic; the mind is the donkey on which we must ride in order to enter into the Heavenly Jerusalem.

The mind (the manas, the man) must debase itself before the majesty of the Innermost. This is ignored by spiritualist devotees, thus, what they always want to do is their own selfish will and never the will of the Father. This is the terrible truth of all these things.” *Major Mysteries*

“Evilness is so fine in the world of the mind... Evilness is so delicate and subtle in the plane of cosmic understanding that in reality a lot of intuition is needed in order not to be cheated by the demons of the Mental World.

The black magicians are millions of times more fine and delicate in the Mental Plane than the black magicians of the Astral Plane.” *Treatise of Sexual Magic*
